

# ESAÚ LOZANO

Cybernetic Engineer | Cybersecurity Focus

## CONTACT

+52 33 2110 7662
esau.lozanov@gmail.com
https://github.com/Sauxer11
Guadalajara, Jalisco, Mexico

## EDUCATION

**Universidad Marista de Guadalajara**
Bachelor's Degree in
Cybernetic and Computer Systems Engineering
2021 - 2025

## LANGUAGES

- **Spanish (Native)**
- **English (C1)**

## TECHNICAL SKILLS

**Cybersecurity:**
Network Analysis, Penetration Testing (Lab), Vulnerability Assessment, Cybersecurity Protocols

**Security Tools:**
Nmap, Wireshark, Metasploit, Kali Linux

**Systems:**
Linux, Windows Internals, Process Analysis

**Programming:**
JavaScript, Python, Java, C, SQL

**Development:**
React Native, Node.js, NestJS, Firebase (Auth, Firestore)

## ABOUT ME

Cybersecurity-focused engineer with a background in Cybernetic and Computer Systems Engineering and hands-on experience in network analysis, penetration testing labs, and secure application development. Skilled in Linux systems, security research, and building IoT-based solutions with secure communication. Actively developing expertise in ethical hacking and vulnerability assessment.

## PROJECT EXPERIENCE

### Secure IoT Greenhouse System (DomoNatura) — 2023

App Developer

- Built a mobile application using React Native and Expo for remote system control
- Integrated Raspberry Pi with backend services for real-time communication
- Implemented secure authentication using Firebase Auth
- Designed real-time data handling using Firestore
- Developed a scalable architecture combining IoT devices, backend services, and mobile interface

### Security Research Project (Pentesting & Malware Analysis) — 2025

Security Researcher

- Conducted penetration testing simulations in controlled lab environments
- Performed network scanning and traffic analysis
- Developed a Windows-based execution framework using HTA and VBScript
- Automated system-level tasks such as file execution and script deployment
- Researched DLL injection techniques to understand process manipulation and system vulnerabilities
